Would someone in our region be able to answer this question....

With Regards, Steve

Subject: Request Number: 00004165 water facility output and waste water intake and effluent capacity RFI

This was a Request for information from this morning that I am just getting to now...finally after dealing with exploding tanks, waivers, and meetings about meetings...

Excuse me if this is redundant but I can't find the answer in our emails so far. The request asks:

"Seeking production capacity for water facility output and waste water intake and effluent capacity and information for the facilities identified in the attached spreadsheet, which are expected to experience at least 4 feet of flooding over the next few days. Seeking to understand which of these facilities is most consequential to the population."

Requesting help from the HQ EOC Water Desk EOC_Water@epamail.epa.gov, but copying Steve Mason as our R6 RRCC point of contact. Turn around is ASAP.

Thanks,

Laura
